

## **Nicholson 32 MkX - IFAN for sale**

IFAN was built in 1976 for the Paris boat show. First registered by Deauville Marine Ltd in France in 1977 and named Pentra Ifan. The previous owner registered the boat in Falmouth but sadly died and Andrew Evans and myself bought Ifan in 2006 as co owners.

Lloyds register 2037 HIN 5355

Ifan based in Tobermory, has been sailed extensively in NW Scotland covering the Inner and Outer Hebrides, St Kilda and Orkney. She has proved an outstanding sea boat, the fully battened main giving her lots of drive even in light airs.

LOA 33ft, LWL 24ft, draft 5ft 6in, beam 9ft 3in, displacement approx 7 tons.

**Location:** – Rosneath

**Price:** £13,500

Automatic bilge pump fitted 2008  
Automatic bilge pump electronic switch replaced 2014  
1x 110Ah battery 2010, 1x 110Ah battery 2014

The hull below waterline has suffered some blistering. At the end of each season, if any blistering is evident, it has been carefully removed down to good fibreglass, allowed to dry out, and then repaired using the West System, a marine grade epoxy designed specifically for boat construction and repair. While a more holistic repair approach is feasible we have found this to be more than adequate and in-line with procedures recommended by some knowledgeable experts. With this in mind, the asking price reflects the expense of undertaking a full repair.
